1er
grado

FYI...

- May 14th - School concert at 7:00pm
- May 26th - Late Start
- May 19th - McDonald's Night
- May 25th - Memorial Day (No School)
- June 5th - Last day of school!

All students should be in their classrooms by 6:45pm tonight. They should wear the black "se habla español" shirt.

IB/PYP

Insects:

- Our butterflies emerged from their cocoons this week! Some of the kids got to see them as they were coming out ☺
- More and more of the mealworms have turned to chrysalids, which has given us the opportunity to discuss another part of the lifecycle of the mealworm.

The IB profile attribute for May is:

Reflexivo/Reflective

Learners give thoughtful consideration to their own learning and experience.

Matemáticas/Math

This week we...

- Learned about dividing regions into equal parts.
- Explored fractional parts of a whole and introduced unit fraction notation.
- Introduced finding fractional parts of collections (using pennies).

Next week we will...

- Complete the Unit 8 Progress Check
- Begin unit 9
- Practice counting by 1s and 10s on the number grid in preparation for adding and subtracting on the number grid.
- Review adding and subtracting 10s
- Use number-grid patterns to count, add and subtract 10s.

Reading/Writing

- Daily practice has improved a lot of the first graders' handwriting!
- We have been recording (almost daily) in our insect journals. In the journals we record the changes we notice in the insects we have in our classroom.
- A lot of the first graders have been reading the book-of-the-week fluently early in the week. I have comprehension and other reading activities prepared for those who are able to read the book fluently and without mistakes.
- Please make sure your child comes to school prepared each day (with his or her book).
