

Noticias de Segundo Grado
23 de abril de 2009

Fiesta de Primavera:

The Fiesta de Primavera is next Saturday, May 2nd at Tuttle's. It will be a wonderful way to get together with the ISLA community, as well as raise some money for the school! We hope to see you all there!

Chatting with ATID:

We have set up an online meeting with ATID in Mexico City. On Monday, our class will be chatting with their class. Our students will be able to ask questions about Mexico City and the students from ATID will ask about Minnesota. It will also be a wonderful way for our students to practice their typing skills. We are excited to be able to continue this relationship we have begun to build!

Math:

This unit in math has been all about measurement. This unit has many new concepts that will be reviewed more this year, and be taught again next year. The "Everyday Math" curriculum is wonderful because it spirals throughout the year and throughout the elementary program. This means that it introduces a concept and that concept is reviewed many times throughout the year and throughout the different grades. It is important to remember that a child may not master every concept perfectly during the first introduction. They will be exposed to the new concept and will begin to understand it, but will continue to gain mastery each time the concept is reviewed.

Field Day:

If you are interested in helping to plan the ISLA field day, please contact Sra. Smith the school office: esmith@islacad.org. She is putting together a group of interested parents to plan this fun day!

Coming Up:

- May 2nd – Fiesta de Primavera
- May 11th – PTO Meeting, 7 pm
